PLANNING COMMISSION MEETING
July 12, 2023
3:00 pm

Council District: Cheryl D. English (10)
Development: Savannah Woods Phase 2
Tax Map Amendment: TMS# R21900-06-14
Applicant: Karl Haslinger for Winner Circle Properties, LLC
Proposed Use: Residential
Proposed Street Name (s): White Marsh Road, Pooler Drive, Sandlapper Ridge Road
Staff Recommendation: Approval

Detail:
Pursuant to SC Code 6-29-1200 (a), a local planning commission shall, by proper certificate, shall approve and authorize the name of a street or road laid out within the territory over which the commission has jurisdiction.

Staff Reviewer: Alfreda W Tindal, E9-1-1 Addressing Coordinator, reviewed the street names and has determined that the E9-1-1 Road Naming Standards have been met.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District.

Zoning District Summary

The NC District is intended to accommodate commercial and service uses oriented primarily to serving the needs of persons who live or work in nearby areas. This district is designed to be located within or adjacent to residential neighborhoods where large commercial uses are inappropriate, but where small neighborhood oriented businesses are useful and desired.

No minimum lot area except as required by DHEC.

Discussion

Parcel/Area Characteristics

The subject site has existing commercial and accessory structures. The site is located near the intersection of Bluff Road and Congaree Road. This section of Bluff Road is a two-lane undivided
minor arterial. Congaree Road is a two-lane undivided major collector. The area is characterized by limited commercial and rural residential uses.

**Public Services**

The subject parcel is within the boundaries of Richland School District One. Gadsden Elementary School is located approximately a half mile north of the subject parcel along S Goodwin Circle. The Gadsden fire station (Station number 19) is approximately 1.2 miles north of the subject parcel along Congaree Road. The parcel is within the Richland County Utilities sewer service area. Water service would be provided through private source.

Being within a service area is not a guarantee that services are available to the parcel.

**Plans & Policies**

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as Rural Activity Center.

**Land Use and Design**

A Rural Activity Center provides opportunities at rural crossroad locations for commercial development to serve the surrounding rural community. This can include small feed stores, restaurants, convenience grocery markets, and similar smaller scale retail uses. These are not mixed-use developments and should not include residential development; however, small bed and breakfasts, or other similar scale tourism operations area appropriate.

**Lower Richland Strategic Community Master Plan**

**Nodes of Activity – Rural Crossroads**

The subject site is found within a “Rural Crossroads” as identified in the Plan. The plan recommends these as areas where significant roads intersect and there is existing non-residential uses. The plan notes that the Gadsden crossroad would benefit from supporting services such as commercial uses.

**Traffic Characteristics**

The 2022 SCDOT traffic count (Station #243) located west of the site on Bluff Road identifies 2,400 Average Daily Trips (ADTs). Bluff Road is classified as a two-lane undivided minor arterial, maintained by SCDOT with a design capacity of 10,800 ADTs. This section of Bluff Road is currently operating at Level of Service (LOS) “A”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.

There are no planned or programed improvements for this section of Bluff Road through the County Penny Sales Tax Program or SCDOT.

**Conclusion**

Staff recommends Disapproval of this map amendment as the request would not be consistent with the objectives for the Rural Activity Center as identified in the Comprehensive Plan and the Lower Richland Plan. The RC district provides for flexibility in the commercial and service uses allowed. The proposed NC does not provide for the same flexibility, either by use or structure size. According to the Comprehensive Plan, the RC zoning district supports the objectives of the Rural Activity Center.

Background

Zoning History

The original zoning as adopted September 7, 1977 was Development District (D-1).

Zoning District Summary

The Residential Single-Family Medium Density District (RS-MD) is intended as a single family, detached residential district of medium densities, and the requirements for this district are designed to maintain a suitable environment for single family living.

Minimum lot area is 8,500 square feet, or as determined by DHEC. The maximum density standard: no more than one principal dwelling unit may be placed on a lot except for permitted accessory dwellings.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 3 dwelling units.

*In calculating the maximum number of dwelling units, site characteristics, restrictions, land used for installation of infrastructure (which often amounts to 20-30% of the site), or application of open space provisions are not taken into consideration.

**Discussion**

**Parcel/Area Characteristics**

The subject parcel a single-family residential structure. Beaver Dam roar is a two lane local road. The immediate area is characterized by residences and zoning districts. All of the adjacent parcels have single-family residences and are zoned for residential use.

**Public Services**

The subject parcel is within the boundaries of Richland School District Two. The Spring Valley High School is located approximately 1.6 miles northeast of the subject parcel on Sparkleberry Lane. The parcel is located in the City of Columbia’s Water service area. The parcel is near the east Richland County Public Service District service area. The Sandhill fire station (station number 24) is located on Sparkleberry lane, approximately 1.2 miles northeast of the subject parcel.

Being within a service area is not a guarantee that services are available to the parcel.

**Plans & Policies**

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as **Neighborhood (Medium-Density)**.

**Land Use and Design**

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation options. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

**Desired Development Pattern**

The primary use within this area is medium density residential neighborhoods designed to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designed using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

**Traffic Characteristics**

The 2022 SCDOT traffic count (Station #897) located south of the subject parcel on Mallet Hill Road identifies 6,000 Average Daily Trips (ADTs). Mallet Hill Road is classified as a two lane undivided collector road, maintained by SCDOT with a design capacity of 8,600 ADTs. This portion of Mallet Hill Road is currently operating at Level of Service (LOS) “B”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.

There are no planned or programmed improvements for this section of Mallet Hill Road through SCDOT or the County Penny Sales Tax program.
Conclusion

The desired development pattern within the Neighborhood (Medium-Density) designation would be comprised of “...medium-density residential neighborhoods designed to provide a mix of residential uses and densities within the neighborhood.” The proposed rezoning would be consistent with the recommendations of the Comprehensive Plan.

Staff recommends Approval of this map amendment.

Background  

Zoning History  
The original zoning as adopted September 7, 1977 was Rural District (RU).  

Zoning District Summary  
The GC District is intended to accommodate a variety of general commercial and nonresidential uses characterized primarily by retail, office, and service establishments and oriented primarily to major traffic arteries or extensive areas of predominately commercial usage and characteristics.

Discussion  

Parcel/Area Characteristics  
The site has frontage along Fairfield Road. The site contains a non-residential structure (place of worship). There are no sidewalks or streetlights along this Fairfield Road. The surrounding area is characterized by residential uses and some industrial uses. The parcel west of the site contains a single-family residence. North and south of the site have commercial uses. East of the site is zoned commercial but is currently undeveloped.
Public Services

The Crane Creek fire station (station number 18) is located on Main Street, approximately 1.19 miles south of the subject parcel on Farrow Road. The Forest Heights Elementary School is located 1.5 miles southwest of the subject parcel on Blue Ridge Terrace. Records indicate that the parcel is in the City of Columbia’s water and sewer service area.

Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as Neighborhood (Low-Density).

Land Use and Design

Areas where low-density residential is the primary use. These areas serve as a transition between Rural and Neighborhood (Medium-Density) areas, and are opportunities for low-density traditional neighborhood development and open space developments that preserve open spaces and natural features. Commercial development should be located within nearby Neighborhood Activity Centers, and may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial. Places of worship and parks are appropriate institutional uses, but should be designed to mitigate impacts on surrounding neighborhoods. Industrial development with significant community impacts (i.e., noise, exhaust, odor, heavy truck traffic) is discouraged in these areas.

Desired Development Pattern

Lower-density, single-family neighborhood developments are preferred. Open space developments that provide increased densities in trade for the protection of open spaces and recreational areas are also encouraged. Residential developments that incorporate more open spaces and protection of natural areas through the use of natural stormwater management techniques, such as swales, are encouraged. Homes in neighborhoods can be supported by small-scale neighborhood commercial establishments located at primary arterial intersections, preferably within Neighborhood Commercial Activity Centers.

Traffic Characteristics

The 2020 SCDOT traffic count (Station #189) located north of the subject parcel on Fairfield Road identifies 7,000 Average Daily Trips (ADT’s). This section of Fairfield Road is classified as a four lane undivided principal arterial road, maintained by SCDOT with a design capacity of 29,200 ADT’s. This segment of Fairfield Road is currently operating at Level of Service (LOS) “A”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADTs data is collected by SCDOT.

There are no planned or programmed improvements for this section of Fairfield Road, either through SCDOT or the County Penny Sales Tax program.

Conclusion

The requested map amendment would be in character with the zoning designations of the parcels north and south of the subject site. However, the proposed rezoning is inconsistent with the objectives of the 2015 Comprehensive Plan, as the subject site is not located within a contextually-appropriate distance from the intersection of a primary arterial or within a Neighborhood Activity Center. In addition, the uses permitted by the requested zoning district
do not support the small-scale neighborhood commercial establishments desired by the Comprehensive Plan for this designation.

For these reasons, staff recommends **Disapproval** of this map amendment.

PROPOSED ZONING: PDD

PC SIGN POSTING: June 23, 2023

Staff Recommendation

Approval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU).

The subject parcel was part of a previous request to General Commercial (GC) District under Case Number 22-015MA. That case was withdrawn.

Zoning History for the General Area

The GC parcel west of the site was rezoned from Light Industrial District (M-1) under case number 07-061MA.

Zoning District Summary

The PDD District is intended to allow flexibility in development that will result in improved design, character, and quality of new mixed-use developments, and that will preserve natural and scenic features of open spaces. Planned development districts must involve innovation in site planning for residential, commercial, institutional, and/or industrial developments within the district. Such developments must be in accordance with the comprehensive plan for the county, and in doing so, may provide for variations from the regulations of the county’s zoning districts concerning use, setbacks, lot size, density, bulk, and other such requirements.

**Discussion**

*Parcel/Area Characteristics*

The subject property has frontage along Broad River Road and is undeveloped. Board River Road is a two-lane undivided minor arterial road without sidewalks and streetlights along this section. The immediate area is characterized by undeveloped uses east and south east of the site and developed parcels to the west and south west. The property is bordered by Interstate 26 to the north.

*Proposed PDD*

The proposed PDD, Exhibit “A” is a 29.96 acre tract that will be comprised of a mix of multi-family and commercial uses. Per the General Development Plan, Exhibit “B”, a maximum of 264 multi-family dwelling units is proposed on the northern 25-acre portion of the subject parcel. Additionally, the PDD identifies 4.96 acres of commercial outparcels.

All proposed uses for the commercial outparcels will match those listed as permitted uses under the Neighborhood Commercial (NC) zoning district with the addition of Restaurants, Limited Service (Drive-Thru), Exhibit “C”.

**Public Services**

The subject parcel is within the boundaries of Lexington/Richland School District Five. The Ballentine Elementary School is located 0.63 miles south of the subject parcel on Bickley Road. Records indicate that the parcel is within the City of Columbia’s water and within the Richland County sewer service area. There is a fire hydrant located southeast of the site on Broad River Road. The Dutch Fork/Ballentine fire station (station number 20) is located on Broad River Road, approximately 3.39 miles southeast of the subject parcel.

Being within a service area is not a guarantee that services are available to the parcel.

**Plans & Policies**

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as **Neighborhood Activity Center**.

**Land Use and Design**

A Neighborhood Activity Center should provide the commercial and institutional uses necessary to support the common day-to-day demands of the surrounding neighborhood for goods and services. The Neighborhood Activity Center should also supply limited local office space demanded by neighborhood businesses, and may provide medium-density housing for the neighborhood, conveniently located near the center’s shopping and employment. A grocery store or drug store will normally be the principal establishment in the neighborhood activity centers, but could also include restaurants, coffee shops, dry cleaners, small banking facilities, and other convenience retail.

**Priority Investment Area**

**I-26 Broad River Road (north) Interchange (PIA #1)**

Small commercial node in Northwestern Richland County. This area presents opportunities to provide neighborhood scale commercial for surrounding residences to reduce vehicle miles traveled and provide convenient access to daily needed goods and services. A Neighborhood Activity Center is located in this area. Investments could include necessary infrastructure, streetscape improvements, signage, and lighting.

**Traffic Characteristics**

The 2022 SCDOT traffic count (Station #180) located southeast of the subject parcel on Broad River Road identifies 12,900 Average Daily Trips (ADT’s). Broad River Road is classified as a two-lane undivided minor arterial road, maintained by SCDOT with a design capacity of 10,800 ADT’s. Broad River Road is currently operating at Level of Service (LOS) “D”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.
There planned improvements for this section of Broad River Road through SCDOT. The project is a proposed widening of Broad River Road (US 76/176) from the intersection of Royal Tower Road (S-1862) to the intersection of I26 for a total of 4.67 miles. The project is currently under design/development. There are no planned improvements for this section of Broad River Road through the Transportation Penny.

### Conclusion

Staff is of the opinion that the proposed rezoning is consistent with the objectives outlined in the Comprehensive Plan for the Neighborhood Activity Center future land use designation. Likewise, the requested zoning would fit with the intent and description for the priority investment area.

For these reasons, staff recommends Approval of this map amendment.

The Streams at Metts Woods PDD– Statement of Intent

To Whom it May Concern:
Please see below for the Statement of Intent (“SOI”) and attached supporting documentation for The Streams at Metts Woods PDD:

Property Information:
The tax parcel number is as follows:
• Richland County R02500-05-10

1. Statement as to what the property is to be used for:
   • The applicant’s intent is to develop a mixed-use development, which will include approximately 264 multi-family units and approx. 4.96 acres of commercial outparcels.

   The multi-family units will be spread across among 11 primary buildings with a mix of 1, 2, and 3-bedroom units, as well as 3 garage buildings with units above. There will also be a leasing office / clubhouse amenity building.

   Parking will be provided via surface parking areas with approximately 555 parking spaces. Amenities will include a dog park, green space, security cameras, BBQ grills, fitness center, detached garages, a pool & gazebo, fire pit, business center, package delivery reception, front and rear rocking porch for gatherings, carwash, and clubhouse. The apartment complex will be accessed via a planned road off Broad River Road.

   The commercial outparcels will front Broad River Road. These outparcels may be adjusted pending tenant selection. Each outparcel will be parked according to Richland County off-street parking requirements.

2. Acreage or size of the tract:
   • This development consists of ±29.96 contiguous acres.

3. Land use requested:
   • Multifamily Residential (Apartments)
   • Commercial Outparcels. All proposed uses for commercial outparcels will match those listed as permitted under Neighborhood Commercial zoning district with the addition of Restaurants, Limited Service (Drive-Thru)

4. Number of lots and number of dwelling units or number of buildings proposed:
The project will include approximately 264 units among 11 buildings with a mix of 1, 2, and 3-bedroom units. The development will include 3 garage buildings, a pool, maintenance building, and clubhouse.

5. Building size(s) proposed:

The scope of work includes the construction of 11 three-story multi-family residential buildings as depicted on the attached site plan. The buildings consist of one-, two- and three-bedroom units. Each unit type has the option for a deck or an office / sunroom. There is also a two-bedroom roommate plan. Supporting the residential units are detached, single car garage buildings. The site also includes an amenity building with a pool.

The eleven apartment buildings are comprised of:

- Max building size is +/- 12,000 gross SF per floor
- Each is three stories with an approximate building height of 45' above grade.
- The exterior cladding materials will include brick, fiber cement siding in various applications, and accents of painted or stained wood and/or prefinished metal.
- Some units will have an exterior balcony or covered patio with a prefinished metal railing.
- Covered open breezeways connecting the units with prefinished metal railings.
- The roof will be primarily asphalt shingle with metal roof accents.

The garage buildings are four separate buildings comprised of:

- Six single-car garages each, for a total of 24 garages.
- Maximum building height of 18’ with an asphalt shingle roof.
- The exterior cladding materials will include brick and fiber cement siding. All sides of the building will be the same level of finish.
- Garage doors will have raised panels and be pre-finished.

The amenity building includes:

- Approximately 4800 SF in a single story.
- Amenities include Exercise room, Cyber Café, Mail Room and large welcoming porches.
- Exterior materials will also align with the residential building construction: exterior cladding materials will consist of fiber cement siding in various applications, and accents of painted or stained wood and/or prefinished metal.
- The roof will be metal.
- The amenity building will open onto a pool deck, which will be surrounded by a prefinished aluminum fence and screened with landscaping.

6. Additional information:

- Utilities are available to serve the site through these service providers:
  - Sewer - TBD
  - Water – Sandy Springs Water District
  - Power – Duke Energy
  - Natural Gas – Piedmont Natural Gas
  - Fiber Optic – AT&T
• The development will meet the requirements of Richland County and SCDHEC for stormwater.
• Any signage related to the proposed development will meet the requirements of Richland County’s sign ordinance.
• The development will meet the requirements of Richland County for buffering and landscaping.
AN ORDINANCE OF THE COUNTY COUNCIL OF RICHLAND COUNTY, SOUTH CAROLINA, AMENDING THE ZONING MAP OF UNINCORPORATED RICHLAND COUNTY, SOUTH CAROLINA, TO CHANGE THE ZONING DESIGNATION FOR THE REAL PROPERTY DESCRIBED AS TMS # R02500-05-10 FROM RURAL DISTRICT (RU) TO PLANNED DEVELOPMENT DISTRICT (PDD); AND PROVIDING FOR SEVERABILITY AND AN EFFECTIVE DATE.

Pursuant to the authority granted by the Constitution of the State of South Carolina and the General Assembly of the State of South Carolina, BE IT ENACTED BY RICHLAND COUNTY COUNCIL:

Section I. The Zoning Map of unincorporated Richland County is hereby amended to change the real property described as TMS # R02500-05-10 from Rural District (RU) to General Commercial District (GC), as described herein.

Section II. PDD Site Development Requirements. The following site development requirements shall apply to the subject parcels:

a) The site development plan is attached hereto as Exhibit “A” and shall be limited to the following:
   1. Eleven (11) primary multi-family buildings; and
   2. The maximum height of any structure is three (3) stories or forty-five (45) feet; and
   3. Three (3) garage buildings with units above; and
   4. Four (4) garage structures, containing no more than twenty-four (24) garages; and
   5. One (1) leasing office; and
   6. One (1) clubhouse amenity building which shall not exceed 4,800 square feet; and
   7. The developer(s) must reserve at least ten percent (10%) of the total project area as park land or open space, which shall be usable, i.e. common areas made accessible for pedestrian and/or aquatic use, and which meet all requirements of section 26-102 (8) (c), (d) and (e); and

b) The General Development plan is attached hereto as Exhibit “B”; and

c) The permitted uses, attached as Exhibit “C”, shall be limited to:
   1. Accessory Uses and Structures (Customary) – See Also Sec. 26-185
   2. Accounting, Tax Preparation, Bookkeeping, and Payroll Services
   3. Advertising, Public Relations, and Related Agencies
   4. Ambulance Services, Emergency
   5. Amusement Arcades

**Zoning History**

The original zoning as adopted September 7, 1977 was Light Industrial (M-1) District.

**Zoning History for the General Area**

The RS-LD parcel north of the site was rezoned under case number 07-052MA.

**Zoning District Summary**

The RS-LD District is intended as a single-family, detached residential district, and the requirements for this district are designed to maintain a suitable environment for single family living. Non-single family development normally required to provide the basic elements of a balanced and attractive residential area is also permitted.

The minimum lot area is 12,000 square feet or as determined by DHEC.

Based upon a gross density calculation*, the maximum number of units for the site is approximately: 79 dwelling units*.  

* Site characteristics, site restrictions, land used for infrastructure or the application of open space provisions (which can amount to 20-30% of the site) are not taken into consideration in calculating gross density
Direction | Existing Zoning | Use
---|---|---
North: | RS-LD / RS-MD / RU | Residential Subdivisions
South: | M-1 | Undeveloped
East: | M-1 / CC (Town of Blythewood) | Undeveloped / Heating & Air / Car Repair / Recreation Center
West: | RS-MD | Willow Lakes Subdivision

**Discussion**

*Parcel/Area Characteristics*

One of the subject sites has a place of worship and the other site is undeveloped. One parcel has frontage on Pine Wedge Drive and Farrow Road and the other site has frontage along Farrow Road. Pine Wedge Drive is a two-lane local road. This section of Farrow Road is a two-lane undivided major collector. The area is characterized by industrial and residential uses.

*Public Services*

The subject parcel is within the boundaries of Richland School District Two. Round Top Elementary School and Blythewood Middle School are located approximately 1.5 miles northeast of the subject parcel. The Blythewood fire station (Station number 26) is approximately 1.8 miles north of the subject parcel along Wilson Blvd. Water and sewer service would be provided through private source.

Being within a service area is not a guarantee that services are available to the parcel.

*Plans & Policies*

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as Neighborhood (Medium-Density).

*Land Use and Design*

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation options. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

*Desired Development Pattern*

The primary use within this area is medium density residential neighborhoods designed to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designed using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

*Traffic Characteristics*

The 2022 SCDOT traffic count (Station #285) located south of the site on Farrow Road identifies 15,300 Average Daily Trips (ADTs). This section of Farrow Road is a two-lane undivided major
collector, maintained by SCDOT with a design capacity of 8,600 ADTs. This section of Farrow Road is currently operating at Level of Service (LOS) “F”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.

There are no planned or proogramed improvements for this section of Bluff Road through the County Penny Sales Tax Program or SCDOT.

**Conclusion**

The proposed rezoning is consistent with the objectives outlined in the Comprehensive Plan for the Neighborhood (Medium-Density) designation. According to the Plan, these areas are identified as a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. The land uses and character of the Areas within this designation should include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format.

In addition, the request would be consistent with the density and development standards of the adjacent developments (Willow Lakes – various phases) north and east of the subject parcels.

Based on the consistency of the request as it relates to the objectives of the Comprehensive Plan, staff recommends **Approval** of this map amendment.

**Zoning Public Hearing Date**

For more information on Priority Investment Areas, refer to the Priority Investment Element in Section 12 of the Comprehensive Plan.

Adopted March 17, 2015

Map Amendment Staff Report

PC MEETING DATE: July 10, 2023
RC PROJECT: 23-024 MA
APPLICANT: Harry Walsh

LOCATION: Kennerly Road

TAX MAP NUMBER: R04100-03-82
ACREAGE: 3.08 acres
EXISTING ZONING: PDD
PROPOSED ZONING: PDD

PC SIGN POSTING: July 25, 2023

Staff Recommendation

Approval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Rural District (RU). The parcel was rezoned to Planned Development District (PDD) under case number 98-005MA.

Zoning History for the General Area

The Residential Single-Family Medium Density District (RS-MD) subdivision, Ascot Ridge, located east of the subject parcel was approved under case number 91-051MA.

Zoning District Summary

The PDD District is intended to allow flexibility in development that will result in improved design, character, and quality of new mixed-use developments, and that will preserve natural and scenic features of open spaces. Planned development districts must involve innovation in site planning for residential, commercial, institutional, and/or industrial developments within the district. Such developments must be in accordance with the comprehensive plan for the county, and in doing so, may provide for variations from the regulations of the county's zoning districts concerning use, setbacks, lot size, density, bulk, and other such requirements.

Discussion

Parcel/Area Characteristics

One parcel has frontage along Miles Bowman Road and Kennerly Road. The parcel is wooded and undeveloped. There are no sidewalks along this section of Miles Bowman Road and Kennerly Road. The surrounding area is primarily characterized by residential uses and undeveloped parcels. North of the site is a single-family residential subdivision. South of the site is undeveloped. West of the site is a large rural residential parcel. East and south of the site are residences.

The existing PDD designates this parcel as common area with detached garages. The requested map amendment will change the permitted use from detached garages for the community to residential single-family. The maximum number of residential units will be nine (9), with a minimum lot size of twelve thousand (12,00) square feet.

The amended PDD also proposes that twelve (12) percent of the 3.08 acres be common area.

Public Services

The Ballentine fire station (station number 20) is located on Broad River Road, approximately 2.2 miles west of the subject parcel. There are no fire hydrants located along Hollingshed Road. Records indicate that the parcel is in the City of Columbia's water service area and located in Richland County’s sewer service area.

Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as Neighborhood (Medium-Density).

Land Use and Design
Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation option. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

Desired Development Pattern
The primary use within this area is medium density residential neighborhoods designated to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designated using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

Traffic Characteristics

The 2022 SCDOT traffic count (Station # 639) located south of the subject parcel on Hollingshed Road identifies 4,400 Average Daily Trips (ADT’s). Hollingshed Road is classified as a two-lane undivided collector road, maintained by SCDOT with a design capacity of 8,600 ADT’s. This segment of Hollingshed Road is currently operating at Level of Service (LOS) “B”.
The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.

There are no planned or programmed improvements for this section Kennerly Road, either through SCDOT or the County Penny Sales Tax program.

**Conclusion**

The proposed rezoning is consistent with the objectives outlined in the Comprehensive Plan. The proposed residential district is in character with the land use and desired development pattern recommended in the 2015 Comprehensive Plan. According to the Comprehensive Plan, zoning districts of similar character within the Neighborhood (Medium-Density) are identified as Manufactured Home (MH), Planned Development District (PDD), Single-family Low Density (RS-LD) and Residential Single-family Medium Density (RS-MD).

The request is also consistent with the character of the existing residential development pattern and zoning districts along this section of Hollingshed Road.

For these reasons, staff recommends **Approval** of this map amendment.

Background

**Zoning History**

The original zoning as adopted September 7, 1977 was Rural District (RU).

**Zoning History for the General Area**

The Neighborhood Commercial District (NC) parcel southeast of the site was rezoned from Rural District (RU) under case number 20-019MA.

The Neighborhood Commercial District (NC) parcel east (adjacent) of the site was rezoned from Rural District (RU) under case number 18-039MA.

The Neighborhood Commercial District (NC) parcel east of the site was rezoned from Rural District (RU) under case number 18-007MA.

The GC parcel northeast of the site was rezoned from Rural District (RU) to General Commercial District (GC) under case number 07-046MA (Ordinance number 086-07HR).

The GC parcel west of the site was rezoned from RU to General Commercial District (GC) under case number 06-19MA (Ordinance number 062-06HR).

**Zoning District Summary**

The RC District recognizes the need to provide for areas within Richland County where residents of the more isolated agricultural and rural residential districts and residents located beyond the limits of service of the municipalities can receive certain convenience merchandising and services. It is intended to be a flexible district allowing a mixture of uses in order to accommodate commercial and service activities oriented primarily to serving the needs of...
persons who live in nearby areas. The RC District is proposed to be within or adjacent to residential neighborhoods where large commercial uses are inappropriate, but where small neighborhood oriented businesses are useful and desired. This district is further designed to be located at or near intersections of arterial and/or major collector roads so as to prevent the spreading of commercial uses down the major corridors or into the surrounding countryside. The minimum lot area is 22,000 square feet or as required by DHEC. There is no maximum density standard.

**Discussion**

**Parcel/Area Characteristics**

The parcels have frontage along Dutch Fork Road and Three Dog Road. Dutch Fork Road is a two-lane undivided minor arterial without sidewalks and streetlights along this section. Three Dog Road is a two-lane undivided minor arterial without sidewalks and streetlights along this section. The immediate area is primarily characterized by residential uses to the south and commercial zoning to the east and west. Located north of the site is railroad ROW.

**Public Services**

The subject parcels are within the boundaries of Lexington/Richland School District Five. Lake Murray Elementary School is located .48 miles south of the subject parcels on Three Dog Road. Records indicate that the parcel is in the City of Columbia’s water service area and is in within Richland County’s sewer service area. There is a fire hydrant located east of the site. The Dutch Fork/Ballentine fire station (station number 20) is located on Broad River Road, approximately 3.9 miles east of the subject parcels.

Being within a service area is not a guarantee that services are available to the parcel.

**Plans & Policies**

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as Neighborhood (Low-Density).

**Land Use and Design**

Areas where low-density residential is the primary use. These areas serve as a transition between Rural and Neighborhood (Medium-Density) areas, and are opportunities for low-density traditional neighborhood development and open space developments that preserve open spaces and natural features. Commercial development should be located within nearby Neighborhood Activity Centers, and may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial. Places of worship and parks are appropriate institutional uses, but should be designed to mitigate impacts on surrounding neighborhoods. Industrial development with significant community impacts (i.e., noise, exhaust, odor, heavy truck traffic) is discouraged in these areas.

**Desired Development Pattern**

Lower-density, single-family neighborhood developments are preferred. Open space developments that provide increased densities in trade for the protection of open spaces and
recreational areas are also encouraged (see Desired Pattern for Rural areas for more information on open space developments). Residential developments that incorporate more open spaces and protection of natural areas through the use of natural stormwater management techniques, such as swales, are encouraged. Homes in neighborhoods can be supported by small-scale neighborhood commercial establishments located at primary arterial intersections, preferably within Neighborhood Commercial Activity Centers.

**Traffic Characteristics**

The 2022 SCDOT traffic count (Station #144) located west of the subject parcel on Dutch Fork Road identifies 11,100 Average Daily Trips (ADT’s). Dutch Fork Road is classified as a two lane undivided minor arterial road, maintained by SCDOT with a design capacity of 10,800 ADT’s. This portion of Dutch Fork Road is currently operating at Level of Service (LOS) “D”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.

There are no planned or programmed improvements for this section of Dutch Road through the County Penny Sales Tax program.

**Conclusion**

The proposed rezoning would not be consistent with the objectives outlined in the Comprehensive Plan.

The Plan recommends commercial development within Neighborhood Activity Centers and within contextually-appropriate distances from the intersection of a primary arterial. The subject parcel is not located at a traffic junction and is not within a contextually-appropriate distance of an intersection or Neighborhood Activity Center. The Plan also discourages “strip commercial development or fragmented ‘leapfrog’ development patterns along corridors.”

For these reasons, staff recommends **Disapproval** of this map amendment.

However, the reference of the Comprehensive Plan that the request should not result in “strip commercial” or “fragmented leapfrog” development may be negated due to the approvals of the previous map amendment approvals (see **Zoning History of the Area**).

Staff Recommendation

Disapproval

Background

Zoning History

The original zoning as adopted September 7, 1977 was Development District (D-1). With the adoption of the 2005 Land Development Code the D-1 District was designated Rural District (RU).

Zoning District Summary

The GC District is intended to accommodate a variety of general commercial and nonresidential uses characterized primarily by retail, office, and service establishments and oriented primarily to major traffic arteries or extensive areas of predominately commercial usage and characteristics.

Maximum density standard: for residential uses, no more than sixteen (16) dwelling units per acre.

Based upon a gross density calculation*, the maximum number of units for this site is approximately: 44 dwelling unit.

*In calculating the maximum number of dwelling units, site characteristics, restrictions, land used for installation of infrastructure (which often amounts to 20-30% of the site), or application of open space provisions are not taken into consideration.

Discussion

Parcel/Area Characteristics

The subject site is an undeveloped parcel. The site has frontage along Sease Road. This section of Sease Road is a two lane local unpaved road without sidewalks and streetlights. The general area is characterized by commercial uses with scattered residences. North, south and west of the subject site are residential and undeveloped parcels. East of the subject site is an undeveloped commercial parcel.

Public Services

The subject parcel is within the boundaries of Richland School District Five. Dutch Fork Elementary School is located approximately 0.52 miles southeast of the subject parcel on Broad River Road. Records indicate that the parcel has no water or sewer connections. There are two fire hydrants located north and south along Broad River Road. The Ballentine fire station (station number 20) is located on Broad River Road, approximately 1.79 miles northeast of the subject parcel.

Being within a service area is not a guarantee that services are available to the parcel.

Plans & Policies

The 2015 Richland County Comprehensive Plan, “PUTTING THE PIECES IN PLACE”, designates this area as Neighborhood (Medium-Density).

Land Use and Design

Areas include medium-density residential neighborhoods and supporting neighborhood commercial scale development designed in a traditional neighborhood format. These neighborhoods provide a transition from Neighborhood (Low-Density) to more intense Mixed Residential (High-Density) urban environments. Multi-family development should occur near activity centers and within Priority Investment Areas with access to roadways with adequate capacity and multimodal transportation options. Non-residential development may be considered for location along main road corridors and within a contextually-appropriate distance from the intersection of a primary arterial.

 Desired Development Pattern

The primary use within this area is medium density residential neighborhoods designed to provide a mix of residential uses and densities within neighborhoods. Neighborhoods should be connected and be designed using traditional grid or modified grid designs. Non-residential uses should be designed to be easily accessible to surrounding neighborhoods via multiple transportation modes.

Traffic Characteristics

The 2022 SCDOT traffic count (Station #150) located southeast of the subject parcel on Broad River Road identifies 16,100 Average Daily Trips (ADT). Broad River Road is classified as a three lane undivided minor arterial, maintained by SCDOT with a design capacity of 12,400 ADTs. This portion of Broad River Road is currently operating at Level of Service (LOS) “E”.

The ADTs are the total volume of traffic passing a point on a roadway during a 24-hour period. ADT data is collected by SCDOT.
There is a planned Traffic Signal Upgrade and a Road Widening Project scheduled for completion by July 2023 for this section of Broad River Road through SCDOT and County Penny Sales Tax programs.

| Conclusion |

Principally, staff recommends **Disapproval** of this Map Amendment as the proposed rezoning would be inconsistent with the general objectives outlined in the Comprehensive Plan for the Neighborhood Medium Density Future Land Use Classification recommendations.

However, the proposed zoning would be in character with the adjacently zoned GC District parcels.
