11. **REPORT OF THE COUNTY ADMINISTRATOR**

a. Updates for Consideration:

1. **Grievance Process** – The County Administrator, Leonardo Brown, noted in the agenda packet there is some information related to the grievance process. It has been a while since Council has had to review grievances because the committee did not have the proper number of members to hold the hearings. He indicated Council recently appointed members so we can begin having grievance hearings again. Following a hearing, the Grievance Committee provides its findings and recommendations via a written report to the County Administrator. As a part of the process, the County Administrator provides an evaluation to Council for their review. Council then can either support the Grievance Committee’s recommendation or not.

Ms. Terracio inquired if things are sometimes resolved during the grievance process without them coming to Council.

Mr. Brown replied that anything resolved would not need to come to Council. The fact that it comes to Council means the grievance process ran its course, there was a finding, and, ultimately, Council has to weigh in utilizing the information provided in the findings and the recommendation of the County Administrator. He noted the Administrator can submit something to Council without a recommendation if they cannot make an objective recommendation. As these are personnel matters, he does not see where that would happen as that is fundamentally his job.

Ms. Barron reminded Council that a couple of months ago, the Rules and Appointments Committee came before Council with a special allotment of applicants because we were having difficulty seating this committee. The Rules and Appointments Committee is glad staff can move forward with hearing these grievances.

Mr. Walker inquired why there was a challenge with obtaining a quorum for this committee.

Mr. Brown responded the members of this committee are County employees. Sometimes, you have individuals who do not want to participate. Another part is employees in the same department as the grievant have to recuse themselves, preventing the committee from having a quorum.

Ms. Barron noted one of the things the Rules and Appointments Committee did was appoint different layers of departments to help alleviate this problem.

b. **Administrator’s Nomination** - Items in this section require action that may prejudice the County’s interest in a discernable way (i.e., time-sensitive, exigent, or of immediate importance)

1. **Community Planning & Development – Conservation Division – Mitigation Bank Credit Sales – Chester Village** – Mr. Brown stated staff recommends approval of the D. R. Horton, Inc. request to purchase 4.4 wetland credits for the construction of the Chester Village development in Chester County at a rate of $20,000 per credit.

   Ms. Mackey requested a brief overview of this item and if there were any changes since the Second Reading.

   Mr. Jeff Ruble, Economic Development Director, stated the County approved the First Reading and Second Reading and held the public hearing. At that point, the City of Columbia requested us to consider making some changes. We went through the process, but ultimately, the City backed away and indicated they were not interested in any changes. Therefore, the terms of the incentive remain the same as those on the First and Second Readings.

   Ms. Terracio inquired if the 4-star and 3-star hotels meet the goal of full-service hotels.

   Mr. Ruble stated the hotels are meeting the goal of full-service hotels in the area. In addition to the hotels, an apartment complex will be on the backside.

   Ms. Terracio requested Mr. Ruble provide what the public infrastructure investment will entail.

   Mr. Ruble responded the public infrastructure investments will include street improvements, a parking garage, landscaping, and pedestrian improvements.

   Mr. Walker stated that he understands the public infrastructure investment is $25M.

   Ms. McBride inquired if the 4-star hotel itself claimed to be a 4-star or if there is a union that certifies 4-star hotels.

   Mr. Ruble replied it is defined in the agreement. There is a certification that documents this is a 4-star hotel.

   Ms. Barron indicated she would like to have details about the public infrastructure.

   Mr. Ruble acknowledged that he would follow up with those details.

   Ms. McBride inquired if the apartments would be connected to the 3-star hotel.

   Mr. Ruble responded that he does not believe they will be physically connected to the hotel but will be adjacent to it. He indicated he had not seen the layout.

Mr. Weaver stated that he understands this will bring our bond available down to approximately $10M.

Mr. Brown responded the bonding capacity would be roughly $12M.

Ms. Terracio requested that we obtain more details about the infrastructure before we move forward with the Second Reading on this item.

Ms. McBride stated this is the First Reading for a potential commercial development project named Project Orei. The developer proposes to construct a 360-unit multi-family project on a 22.3-acre site adjacent to I-20 in Northeast Richland County. The developer anticipates investing $47.1M and creating approximately $7.4M in public infrastructure or workforce housing.

Mr. Walker indicated his notes say the investment is $65M and the public infrastructure investment is $12.5M.

Mr. Ruble stated there is a taxable investment and a total investment. There is also public infrastructure and workforce housing, which is capped at $12M. In response to Ms. Terracio’s earlier question, we typically count physical infrastructure (i.e., parking garage and pedestrian improvements). In this case, it is outside Columbia, and they did not need to build a parking garage. What we did differently with this project was to count obtainable workforce housing.
