

## FREE VOLUNTEER MONITORING TRAINING JUNE 5<sup>th</sup> – 6<sup>th</sup>

**Camp Discovery – 208 Claude Bundrick Rd, Blythewood, SC**

All are welcome to attend this training and become a certified Adopt-A-Stream volunteer. Participants will be given classroom and hands-on instruction on how to:

- Select an appropriate monitoring site;
- Use equipment properly and best storage practices;
- Enter data to the Adopt-A-Stream database;
- Practice safety in the field at all times!

You are part of a “Love Our Rivers” movement collecting hundreds of data points on South Carolina waterways. **Attend one session or both, but RSVP is required.**

### **Bacterial and Chemical Session – June 5<sup>th</sup>, 9:00am – 3:30pm**

Learn to collect surface water samples and perform chemical and bacterial assessments to measure water quality in the stream over time. Be prepared to get in a shallow creek!

RSVP at <https://aaschembactraining.eventbrite.com>

### **Macroinvertebrate Session – June 6<sup>th</sup>, 9:00am – 3:30pm**

Learn to collect macroinvertebrates samples, how to identify them, and what their presence says about stream health. Be prepared to get in a shallow creek!

RSVP at <https://aasbiotraining.eventbrite.com/>
