

**Mission and Goals:  
Vector Control**

**Mission:**

To provide the citizens of Richland County with the most efficient and effective mosquito control possible, utilizing integrated surveillance and control strategies.

**Goals and Objectives:**

- ◆ Perform surveillance activities to assess mosquito populations.
- ◆ Educate the public about container-breeding mosquito species.
- ◆ Investigate citizen complaints concerning natural and/or artificial breeding sites.
- ◆ Investigate citizen requests for spraying.

**Data:**

<b>Measure</b>	<b>Fiscal Year 2002</b>	<b>Fiscal Year 2003</b>	<b>Fiscal Year 2004</b>
# of traps collected	510	566	520
# of premises visited	0	476	300
Respond to complaints of breeding sites within six days	88%	94%	90%
Respond to requests for spraying within six days	90%	95%	92%
